PRODUCT SCHEMATICS

L13 DOUBLE-LAYER SATIN LANYARD

GENERAL DISCLAIMER

DEVIATION: Please note that there are deviations inherent to the printing materials and techniques. The deviations are within standard industry tolerance and hereby deemed acceptable by customers.

RIBBON COLORS: Please note that the ribbon colors should be chosen from our color chart (196 available colors). If you have a specific color scheme, we would match it to the closest color set from our color chart, however, accuracy in color conversion is not guaranteed.

COLORS: Please note that only the PANTONE coated color system is accepted to match the required colors (unsupported color systems: PANTONE uncoated, PANTONE TPX, CMYK, RGB, etc.). A color deviation of +/-10% is tolerable by industry standards. When colors are not specified, based on our experience, we would recommend popular colors from PANTONE coated system. If your logo has a specific color set using other color systems, we would convert it to the closest PANTONE coated colors based on the display colors on our screen, however, accuracy in color conversion is not guaranteed.

DIMENSIONS: Please allow a length deviation of +/-5mm.

POSITIONS OF DESIGNS: Please allow deviations of +/-1mm (vertical) and +/-10mm (horizontal) from your artwork.

POSITIONS OF ATTACHMENTS AND STITCHES: Please allow a deviation of +/-10mm (horizontal) from your artwork.

TRANSPARENT BASE: Please note that unless specifically requested, transparent base will not be used for double-layer satin lanyard.

SPECIFIC DISCLAIMER

- N/A

ACKNOWLEDGEMENT

Please confirm the above information is accurate (design, spelling, color, dimension, attachment, adds-on option, imprinting technique, packaging, delivery address etc.). Please note that we are not able to cancel or modify orders (including delivery address) once the orders go into production (after 7PM East Time on the day we receive your confirmation).

I acknowledge the above information is correct and I agree to accept all parts of this disclaimer.
