### PRODUCT SCHEMATICS

# L09 CUP HOLDER LANYARD

## GENERAL DISCLAIMER

---

**DEVIATION:** Please note that there are deviations inherent to the printing materials and techniques. The deviations are within standard industry tolerance and hereby deemed acceptable by customers.

**DIFFERENT COLOR EFFECT:** Please note that due to the different materials, the cup holder color may look different than the lanyard color even when the same PANTONE color is applied.

**COLORS:** Please note that only the PANTONE coated color system is accepted to match the required colors (unsupported color systems: PANTONE uncoated, PANTONE TPX, CMYK, RGB, etc.). A color deviation of +/-10% is tolerable by industry standards. When colors are not specified, based on our experience, we would recommend popular colors from PANTONE coated system. If your logo has a specific color set using other color systems, we would convert it to the closest PANTONE coated colors based on the display colors on our screen, however, accuracy in color conversion is not guaranteed.

**DIMENSIONS:** Please allow a circumference deviation of +/-3mm for the cup holder and please allow a length deviation of +/-5mm for the lanyard.

**POSITIONS OF DESIGNS:** Please allow deviations of +/-1mm (vertical) and +/-10mm (horizontal) from your artwork.

**POSITIONS OF STITCHES:** Please allow a deviation of +/-10mm (horizontal) from your artwork.

**EDGE OF THE CUP HOLDER:** Please note that due to technical limitations, the edge of the silicone cup holder is not as smooth as metal wristbands and some silicone cup holders might have partial rough edges.
